An award-winning Product Designer experienced in designing B2B and B2C fintech products for startups, skilled in user research, user testing, wireframing, prototyping, design systems and visual design tools such as Figma and Adobe XD. I love working on experiences that address the needs of different people. I am looking for a role where I can contribute my design expertise to meaningful projects, while expanding my skills in creating innovative, accessible, and user-focused digital products.

WORK EXPERIENCE

PRODUCT DESIGNER - AfriBDC

AUGUST 2024 – SEPTEMBER 2025

Lead the design for currency exchange mobile app and admin dashboard leading to a successful launch of the product and high adoption rate.
Conducted user research, including interviews and surveys, to gather insights and inform design decisions.
Developed wireframes and interactive prototypes using Figma for admin dashboard, website and mobile app.
Iterated designs based on user feedback after usability testing to ensure seamless user experience.
Collaborated with cross-functional teams to ensure design align with project goals and technical feasibility.
Create a scalable design system solidifying visual and typographic consistency across the platform's UI and increased project delivery speed by 150%.
