Design
Documentation.
Developer handoff.
HTML, CSS.
JavaScript
React.js

SOFT

Design Leadership.
Collaboration.
Good
communication.
Problem solving.

WORK EXPERIENCE

PRODUCT UX DESIGNER - Palpeer

AUGUST 2024 – JANUARY 2026

Lead the design for currency exchange mobile app and admin dashboard.
Conducted user research, including interviews, usability tests and surveys, to gather insights and inform design decisions.
Developed wireframes and interactive prototypes using Figma.
Iterated designs based on user feedback after usability testing to ensure seamless user experience achieving a 4.6/5 user satisfaction score post-launch.
Create a scalable design system solidifying visual and typographic consistency across the platform's UI and increased project delivery speed by 150%.

UX DESIGNER - Elkotech Solutions

December 2022 – July 2024

Collaborated with Elkotech's development team to design websites for different clients.
Extrapolated insights from qualitative user research to define personas, user flows, project deliverables, and success metrics.
Articulated design decisions shown in wireframes and high-fidelity prototypes to Elkotech's product team cutting revision cycles by 25%.

KEY PROJECTS

Transaction Monitoring and Fraud Detection Tool

Designed end-to-end user experiences for a transaction monitoring tool focused on transaction health monitoring, advanced pattern recognition, AI-powered fraud detection, regulatory compliance and risk analysis.

Role:

Designed real-time monitoring dashboards with transaction scoring, and real time alerts.
Collaborated with data engineers and product stakeholders to align UX decisions with AI/ML-driven insights and regulatory requirements.
Created scalable UI patterns for risk scoring, anomaly detection, and behavioral analytics across web-based enterprise tools

Ensured usability, clarity, and WCAG accessibility compliance throughout.

Impact:

Reduced average fraud review time by 40% through improved dashboard clarity and real-time alert prioritization.

Enhanced transparency and trust through clear audit trails, risk visualizations, and real-time alerts, contributing to a 98% compliance audit

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

UNIVERSITY OF THE PEOPLE - ONLINE

JUNE 2026 – PRESENT

DIPLOMA IN INFORMATION TECHNOLOGY

ELDORET TECHNICAL TRAINING INSTITUTE

JANUARY 2023 – JULY 2024
