PROFESSIONAL SUMMARY

Award-winning Product Designer (UX/UI) with 3+ years' experience designing B2B and B2C fintech products and scalable design systems. Skilled in user research, usability testing, wireframing, prototyping, and interaction design, with a strong grounding in Figma and the Adobe Creative Suite. Experienced translating business and functional requirements into user flows, wireframes, and high-fidelity prototypes for cross-functional teams, with a track record of designing for compliance-heavy, transaction-driven financial platforms. Looking to bring this expertise to Co-op Bank's Youth Financial Services digital experience.

RELEVANT SKILLS

- UX/UI design: user research, usability testing, wireframing, prototyping, interaction design, information architecture, user flows and site maps.
- Tools: Figma (incl. Figma MCP Server), Fig Jam, Adobe XD, Adobe Creative Suite.
- Design systems: design tokens, scalable UI patterns, WCAG accessibility compliance, design documentation, developer handoff.
- Front-end fundamentals: HTML, CSS, JavaScript, React.js — supports feasibility conversations with engineering.
- Stakeholder & cross-functional collaboration, design leadership, workshop facilitation, problem solving.

WORK EXPERIENCE

Product Designer (UX/UI) — Palpeer *Aug 2024 – Jan 2026*

- Led end-to-end UX/UI design for a currency exchange mobile app and admin dashboard, translating business requirements into user flows and wireframes.
- Conducted user research — interviews, usability testing, and surveys — to gather insights and inform design decisions, achieving a 4.6/5 user satisfaction score post-launch.
- Built a scalable design system establishing visual and typographic consistency across the platform's UI, increasing project delivery speed by 150%.

- Designed a transaction monitoring and fraud detection tool: real-time monitoring dashboards, transaction scoring, and risk/anomaly-detection UI patterns for an enterprise web tool, working closely with data engineers and product stakeholders to align UX with AI/ML-driven insights and regulatory requirements.
- Reduced average fraud review time by 40% through clearer dashboard design and real-time alert prioritization, and contributed to a 98% compliance audit pass rate through clear audit trails and risk visualizations — all while ensuring WCAG accessibility compliance.

UX Designer — Elkotech Solutions *Dec 2022 – Jul 2024*

- Collaborated with Elkotech's development team to design websites for multiple clients, acting as the link between client requirements and technical delivery.
- Extrapolated insights from qualitative user research to define personas, user flows, project deliverables, and success metrics.
- Presented design decisions — wireframes and high-fidelity prototypes — to the product team, cutting revision cycles by 25%.

EDUCATION

Bachelor of Science in Computer Science (In Progress) *Jun 2026 – Present*
University of the People — Online

Diploma in Information Technology *Jan 2023 – Jul 2024*
Eldoret Technical Training Institute

CERTIFICATIONS

- Full-Stack Web Development — Sep 2023 – Jul 2024
- User Experience Design — Mar 2023 – Dec 2023

AWARDS

- 4th Runners-Up — Emobilis Technology Hackathon Competition (2024): redesigned a health & wellness app in under 48 hours, judged on usability, accessibility, and business impact.
